Schedule of Events

Weekly All-Star Line Up

Reading:

Our last novel study is actually three. They students were able to choose The BFG, Holes, or Shiloh. Each student has a folder with a schedule of chapters to read and assignments to complete. We should finish these during the third week of May and finish up by watching the movie for each.

English:

We are finishing up our last unit in English. It covers adverbs and prepositions. We will continue to label sentences as it helps the students remember their parts of speech.

Math: Unit 8

More fractions!! Unit 8 is a partial review of fractions and then multiplying and dividing fractions. This will hopefully be even easier than adding and subtracting them. Keep working on the math facts. They NEED to be mastered!

Social Studies/Science:

Our area of study for the 3rd trimester will be Life Science. We just finished cells and systems and will be moving into life cycles and traits. In Social Studies, we are moving on past the Revolutionary War and into government. Thanks to Modern Woodworkers, we have a great unit for this.

Notes from the Teacher:

Ask your child how our transitions to middle school are going. We will be shadowing the middle school soon so the students have a small glimpse of how to change classes. We will also be making our resource binders.

Hit a Homerun with: service

Please keep working on the service project chosen by your child. The project can last all the way until April. It depends on what your child is doing. Remember to keep all information your child needs to contact or do their service. If it is for a relative, then the child needs to get a written statement of what he/she did. If there are questions, please contact me.
