LAST DAY OF SCHOOL!

Writing: Simple 6

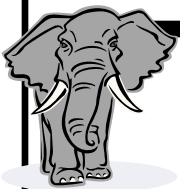

We will finish our year of writing with a final Simple 6 writing prompt. It is amazing to see the students' progression from their beginning writing samples till now! I am so proud of them!

Math:

This month we will start and finish Unit 10: Decimal and Place Value! In this unit, children will review money concepts, money exchanges, and equivalent amounts. The unit also focuses on extending work with fractions and money by using decimal notation. Later, children will work with place-value notation for 5-digit numbers!

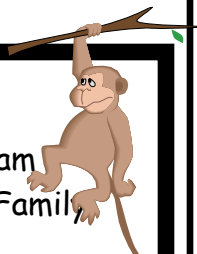

Science: Life Science!

We will end our school year learning about plants, animals and habitats! What a perfect time of year to enjoy living things around us! ☺

Teacher Notes:

I want to thank you all for an amazing and unforgettable first year! I am truly blessed to have the opportunity to be a part of the Queen of Peace Family!
