

Preschool October News

Our first month of school has gone quite smoothly. We are having fun and learning along the way. Thanks go out to our drivers to the fire station, those of you who have sent in wonderful supplies and to those who have offered to volunteer at our school. You are all very much appreciated!

Picture Day is October 5 and the morning of October 6. Information will be in your communication envelope soon. We are included in the yearbook, so you don't want to miss out!

This month the **4-5 classes** will identify physical properties and do some graphing. They will also learn about nocturnal animals, spiders, and squirrels. We will work on recognizing numbers, counting and matching. We will carve a pumpkin and learn how a pumpkin grows and the parts of a pumpkin. Our letters for October are G and J.

The **3-4 class** will observe the changes that come with autumn, compare big and little and sort objects. We will also talk about what is real and what is make believe. Our colors for the month are black and orange.

All classes will talk about stranger danger and staying safe.

Fall party dates are on your class calendar. You may be contacted by a room parent to help. Remember to complete the safe environment training before volunteering in the classroom. As with field trips, siblings are not allowed at our parties. No costumes!

School Closings and Delays: In the event of a morning school delay, the morning preschool will be cancelled. Also watch to see if the afternoon class is cancelled if the weather takes a turn for the worse before noon. Closings and delays are posted on the local television stations.

Have a fun and safe Fall Break October 28th!

God bless,

Ms. Teresa Brown and Mrs. Lertola
