Hive Happenings

Reading:

January is a very exciting month for reading! We will be learning about penguins through reading both fictional and non-fictional texts! We will also discover biographies and read one about the brave Martin Luther King Jr.

Writing: Simple 6

To support our Simply 6 writing techniques, we are continuing to write letters to our pen pals every two weeks. Ask your child about the letters they send & receive from their special friend in Cincinnati! We are also very excited to start cursive writing this month! Yay! ☺

Math: Unit 5

This month we will begin Unit 5, 3-D and 2-D Shapes! Through hands-on activities, the children will observe similarities and differences among various shapes and explore spatial relationships.

Science: Physical Science

We will continue learning about matter and the different ways in which matter changes. We will also be starting our class Science Fair Project! Ask your child about the amazing discoveries we find! ☺

Busy Bees

Jan. 8 - Epiphany Concert/Vespers 5pm

Jan. 9 - All School Mass
