Hive Happenings

Reading:

Students will continue reading stories from our reading series and take comprehension assessments. We will also be doing our first book study of the year from the Magic Tree House series to correlate with the month of October and Halloween! ☺

Writing: Simple 6

We are using the Simple 6 writing strategy! We are very excited to have started writing and receiving letters from our awesome 2nd grade pen pals in Cincinnati, Ohio! Ask your child about his/her special friend. ☺

Math: Unit 2

This month we are working our way through Unit 2: Addition and Subtraction Facts! We will also begin Unit 3: Money, Place Value, and Time! Please be reviewing the HomeLinks sent home with your child each night for homework.

Science: Earth Science

Our Earth Science unit will include information about weather, the water cycle and changes in weather. Look for your child's 'Seasons Brochure' coming home this month! ☺

Buzz-worthy Notes:

I am so impressed with all our Community Helpers!
Thanks for your help making our first project a success!
Please be aware of our book report project this month. ☺

Hap-Bee Birthday!

Jon Paul, Eric, Anthony, Paige ☺
