Diving Into Learning

K-1: Introduction

The students have been busy using the internet program, Starfall, to work on letter sounds and beginning reading skills! They are also being introduced to Kid Pix now and will continue using it in November!

2-3: Reviewing

These students have been actively using the program "Kid Pix" to draw pictures of autumn and Halloween scenes. In the coming weeks, they will be learning how to create a Slide Show (multimedia presentation) in Kid Pix.

4-5: Reviewing

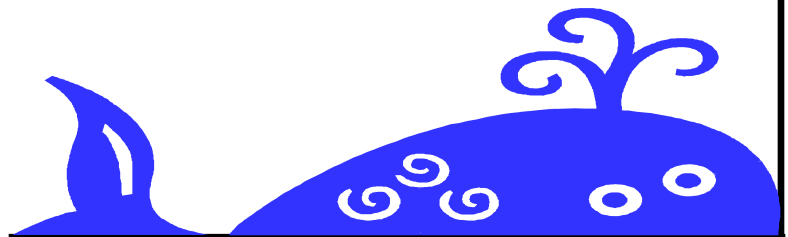

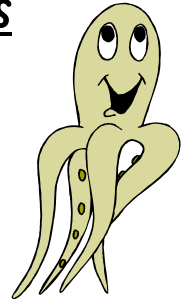

This group of students has been busily using the internet to do research about their Saint, the 50 States, and Native American Indian Tribes. Both classes are currently creating Power Point Presentations in the Computer Lab.

6-8: Reviewing

The Middle School students will be learning more about what a website is made of and how it's made, as well as learning more about creating tables in Microsoft Excel (in preparation for the Science Fair!)

Ocean of Events

- Nov. 1: All Saint's Day, Mass
- Nov. 2: All Soul's Day, Mass
- Nov. 10: HASA Mtg. 7:00 PM
- Nov. 12: Holiday Bazaar, 9-2
- Nov. 14: Market Day Pickup
- Nov. 24: Happy Thanksgiving!

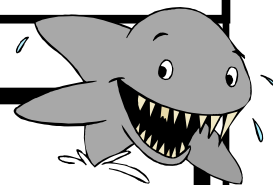

It's A Whale of a Website!

Name of Website

www.abcya.com

From the Teacher:

I would like all students, grades 3-8 to have a Flash Drive available for school use. All students in grades 4-8 are required to have one!!

Don't forget to bring your headphones to school
